

Size Guide for Handmade Nails

Nailzify press-on nail sets come in four set sizes: XS, S, M and L. Each set contains nails sized for every finger, so you choose one set size rather than a size per nail.

Size Chart

All sizes are in millimetres (mm). Each column is the width of that finger's nail in the set.

Set size	Thumb	Index	Middle	Ring	Little
XS	14	10	11	10	8
S	15	11	12	11	9
M	16	12	13	12	10
L	17	13	14	13	11

How To Measure

Please measure the widest part of your nail bed.

Use a flexible tape measure or a strip of paper laid across the nail at its widest point, then read the measurement in millimetres.

Choosing Your Size

- Choose the size of nail set that best matches the majority of your fingernails.
- Go with the larger size if you're uncertain between two options, or if you have wider, flatter nail shapes.
- We always recommend sizing up 1–2mm — you can easily file down to fit, but you can't make them longer.
